IT Skills

Programming

Python, Java, C#, CSS, HTML,

PHP, Javascript

Software Tools

Android Studio, MATLAB, R,

Microsoft, Oracle

Soft Skills

- Teamwork & Collaboration
- Communication
- Time Management
- Fast Learner
- Customer Service

Language

Mandarin

English

Bahasa Malaysia

Low Jack Han

Computer Science (AI) Student

Experience

Internship — Sophic Automation Sdn. Bhd (Simpang Ampat, Penang)

Oct 2022 – Mar 2023 • Software Innovation Department

- Assisted in developing a Building Management System (BMS) using C# and WPF.
- Designed UI screens, configured door access systems (MagEtegra), and supported fingerprint device setup.
- Documented workflows and collaborated with supervisors, vendors, and team members to resolve technical issues.

Service Crew / Cashier — Dong Tai Kopitiam (Ipoh, Perak)

Mar 2023 – Oct 2023 (Full-time) • Part-time during semester breaks

- Handled customer service, order taking, and cashier operations in a fast-paced dining environment.
- Prepared toast, beverages, and assisted with front-of-house operations and daily closing tasks.

Education

2023 - Present

Universiti Teknikal

Malaysia Melaka (UTeM)

**Bachelor of Computer Science
(Artificial Intelligence)**

Current CGPA - 3.45

2020 - 2023

Politeknik Balik Pulau

(PBU)

**Diploma of Information Technology
(Digital Technology)**

CGPA - 3.92

2015 - 2019

SMJK Yuk Choy

SPM - Science Stream

1A+ 3A- 2B+ 2B- 1C+ 1C

Project

AI-Based Computer Vision for CCTV Analysis (Degree FYP)

- Developed a real-time CCTV anomaly detection system using YOLO/CNN for object and behaviour recognition.
- Implemented automated alerts and evaluated model performance across different surveillance scenarios.

ITN E-Book with Augmented Reality (AR) (Diploma FYP)

- Built an AR learning app using Unity + Vuforia to display interactive 3D networking devices.
- Integrated AR scanning and animations to help students visualize ITN concepts more effectively.

Salary Prediction Dashboard for Fresh Graduates (Capstone)

- Built a salary prediction model using CatBoost trained on 69,000+ JobStreet listings to estimate entry-level salary ranges.
- Developed an interactive dashboard with Flask API + Dash/Plotly for real-time salary insights by job role, category, type, and location.

Certifications

- Oracle Certified Foundations Associate
- ASEAN Data Science Explorers 2025 competition
- FINAL YEAR PROJECT COMPETITION (FiyProC)
